DRAFT - RLS
29 August 1973

25X1

MEMORANDUM FOR: _____

SUBJECT : Additions to Proposed Outline for DCI

Annual Report to PFIAB

REFERENCE : 27 August Memo _____ Entitled "Proposed   25X1

Outline for DCI Annual Report to PFIAB."

The outline submitted _____ addresses a number   25X1
of excellent topics to be included in the new DCI Annual Report
to PFIAB. The outline also covers quite well a number of product
review and improvement topics. I believe the following additional PEG oriented
items regarding evaluation and collection strategy should be
added to the outline.

1. Cross Program Evaluation. (A description of the mechanism
and efforts designed to evaluate intelligence activities which
involve multiple elements of the community.)

--Scope. (A brief summary of currently identified cross p
program issues.)

- ELINT/Telemetry Processing and Exploitation. (A descrip-
tion of planned study and current efforts.)

- HUMINT Evaluation. (A few paragraphs on analysis of HUMINT
collection and processing capabilities.)

2. <u>Intelligence Community Performance Evaluation</u>. (A description of the evaluation process as it relates to the KIQ/NIO concept.)

 - <u>Relation to Consumer Requirements</u>. (A ~~summary of the KIQ/NIO process.~~ *description of the requirements for evaluation in the KIQ/NIO process.*)

 - <u>Collection Resource Impact</u>. (A description of the impact of the KIQ/NIO requirements as well as standing requirements on collection resources availablity.)

 - <u>Evaluation Process</u>. (A description of the mechanism to evaluate performance against collection requirements.)

3. <u>Performance Evaluation of Collection and Processing Resources</u>. (A description of the mechanisms designed to support evaluation of individual intelligence resources.)

4. <u>Collection Strategy Determination</u>. (A description of the process being evolved to develop effective, properly prioritized collection strategies in response to consumer-generated requirements.)
